Jos Molnar
ING Nederland
Rotterdam and The Hague, Netherlands

Dear Mr. Molnar,

I am excited to apply for the Backend Developer Intern position at ING Nederland. Currently pursuing an MCA degree at [Your University], I have gained practical experience in server-side development and Java coding, alongside collaborating with front-end developers.

The opportunity to work with ING's Global Data Centres team appeals to me due to its dynamic environment and focus on innovation. I am eager to contribute my skills and enthusiasm to your team, while gaining valuable experience in a fast-paced, international setting.

Thank you for considering my application. I look forward to discussing how my background aligns with ING's needs.

Sincerely,
Ratnakar Dashrath Yadav
