Hiring Manager

Goldman Sachs

Bengaluru, Karnataka, India

Dear Hiring Manager,

I am writing to express my interest in the Summer Analyst position within the Human Capital Management Division at Goldman Sachs. As a passionate software developer with a strong foundation in computer science and currently pursuing my Master's degree, I am excited about the opportunity to contribute to the strategic talent management initiatives at Goldman Sachs.

Throughout my academic career and practical experiences, I have developed a deep understanding of software development, particularly in backend development and scalable web applications. My proficiency in core programming languages such as Java, Python, and JavaScript, coupled with hands-on experience in frameworks like React.js and Spring Boot, has equipped me with the technical skills necessary to excel in a dynamic and fast-paced environment.

During my participation in the SKN Pandharpur Hackathon 2k24, I contributed to the development of an AI-based job finder application, which provided me with valuable insights into problem-solving, teamwork, and project management. These experiences have strengthened my ability to work collaboratively in high-pressure situations, and I am eager to bring this skill set to your team.

What excites me most about the Summer Analyst role is the opportunity to be fully immersed in the day-to-day activities of the Human Capital Management Division. I am particularly drawn to the prospect of working on real responsibilities alongside fellow interns and Goldman Sachs professionals, where I can apply my technical expertise to support the firm's mission of developing and managing a global workforce. I am confident that my background, combined with my commitment to continuous learning and innovation, makes me a strong fit for this role.

I am enthusiastic about the possibility of joining Goldman Sachs and contributing to your efforts in attracting, developing, and managing talent. I look forward to the opportunity to discuss how my skills and experiences align with the goals of your team.

Thank you for considering my application. I look forward to the possibility of contributing to Goldman Sachs as a Summer Analyst.

Sincerely,

Ratnakar Dashrath Yadav
